

York University

The School of Kinesiology and Health Science in the Faculty of Health at York University presents a unique learning opportunity for students wanting to pursue a career in Athletic Therapy. Students can earn an honours Kinesiology and Health Science degree (either Bachelor of Science or Bachelor of Arts) while studying Athletic Therapy concurrently in the Athletic Therapy Certificate program. A secondary route to a career in Athletic Therapy is through the two year stand-alone Athletic Therapy Certificate which can be started after an honours undergraduate Kinesiology or Physical Education type degree. The York University Athletic Therapy Certificate program is recognized as an accredited educational program through the Canadian Athletic Therapists' Association (CATA) and all students completing the York University program are eligible to do the CATA national certifying examinations.

Unique features of the York University Athletic Therapy Certificate include:

- An honours degree in Kinesiology and Health Science taught by PhD level professors forming a strong foundation for Athletic Therapy
- An Athletic Therapy program taught by CATA Certified Athletic Therapists who have multiple credentials in strength and conditioning; manual therapy skills; advanced first responder skills; and extensive amateur and professional sport experience
- An integrated theoretical and practical Athletic Therapy program that provides clinical and field placements both on and off campus
- Opportunities to progress toward graduate studies with the world renowned

York University Kinesiology and Health Science Graduate Program

The York University Athletic Therapy Certificate program will attract applicants who are willing to invest time and energy to become the best Athletic Therapists possible.
